Admin can product,

Product have categories

Admin clicks on add category-> redirect to a new page that accept the name of the category.

Screen 9

The screenshot shows a web browser window with the address bar displaying 'http://'. The page has a navigation menu with links: Home, Products, Users, Manual Order, and Checks. A user profile icon labeled 'Admin' is in the top right. The main section is titled 'Checks' and contains two input fields: 'Date from' and 'Date to', both with calendar icons. Below these is a 'User' dropdown menu. There are two tables displayed. The first table lists users with expandable rows (+) and a collapsed row (-). The second table lists orders with expandable rows (+) and a collapsed row (-). At the bottom, there is a section for items: Tea (5 LE), Coffee (6 LE), Nescafe (8 LE), and Cola (10 LE), each with a quantity of 1. A pagination bar at the bottom shows '1 2 3 ...' with navigation arrows.
